CarePrecise Advanced

Data fields contained in CarePrecise Advanced

Includes the CarePrecise Complete (CPAC) and Extended Professional/Group/Hospital (EPGH) file sets in CarePrecise Advanced and CarePrecise Platinum.

CPAC (CarePrecise Access Complete) data is sourced and merged from the NPPES, PECOS, LEIE and other federal databases, keyed on the NPI. Every record has a unique NPI, and the NPI is used to link the relational tables together. The full dataset is updated monthly.

File Set	Table Name	Field Name	Description	Additional Information
CPAC	**tAddresses_Prac** Provider's primary practice location address; secondary practice locations are listed in the OtherPracticeLocations table.	**NPI**	National Provider Identifier (unique National Provider Identifier assigned to healthcare providers by the US Department of Health and Human Services)	**Relational Key**
		Prac1stAddr	Provider First Line Business Practice Location Address	
		Prac2ndAddr	Provider Second Line Business Practice Location Address	
		PracCity	Provider Business Practice Location Address City Name	
		PracState	Provider Business Practice Location Address State Code	
		PracZip	Provider Business Practice Location Address Postal Code (most are 9-digit Zip Codes)	
		PracCountry	Provider Business Practice Location Address Country Code	
CPAC	**tAddresses_Mail** Provider's business mailing address	**NPI**	National Provider Identifier (unique National Provider Identifier assigned to healthcare providers by the US Department of Health and Human Services)	**Relational Key**
		Mail1stAddr	Provider First Line Business Mailing Address	
		Mail2ndAddr	Provider Second Line Business Mailing Address	

		MailCity	Provider Business Mailing Address City Name	
		MailState	Provider Business Mailing Address State Code	
		MailZip	Provider Business Mailing Address Postal Code (most are 9-digit Zip Codes)	
		MailCountry	Provider Business Mailing Address Country Code	
CPAC	**tOtherPracticeLocations** Additional (secondary) practice locations for Type 2 providers; one-to-many table. Table is not provided in custom data pulls (CarePrecise Select services).	**NPI**	National Provider Identifier	**Relational Key (composite)**
		SecondaryPracAddr1	First line of street address	**Relational Key (composite)**
		SecondaryPracAddr2	Second line of street address	
		SecondaryPracCity	City Name	
		SecondaryPracState	State Code	
		SecondaryPracZip	Postal Code (most are 9-digit Zip Codes)	
		SecondaryPracCountry	Country Code (If outside U.S.)	
		SecondaryPracPhone	Location Phone Number	
		SecondaryPracPhoneExt	Location Phone Extension	
		SecondaryPracFax	Location Fax Number	
		SecondaryLocationDate	Location Date	
CPAC	**tEntity**	**NPI**	National Provider Identifier	**Relational Key**
		EntityType	Entity Type Code	Type 1 indicates an individual provider (i.e., physician, psychologist, etc.); Type 2 indicates an organizational provider (i.e., hospital, lab, pharmacy, etc.). Type1 entities (individuals) may have only one NPI number and so only one record, but Type 2 entities (organizations) may have multiple NPI numbers and thus multiple records. *Click here to download the Exclusion Type Code description document...*
		ReplacementNPI	Replacement NPI	Not currently populated
		EIN	Employer Identification Number (EIN)	Not currently populated. CMS is not yet providing tax numbers of this type.
		EnumDate	Provider Enumeration Date	Date the record was first added to the NPI registry

UpdateDate	Last Update Date	Date this provider NPI record was last updated
DeactReason	NPI Deactivation Reason Code	Not populated because records in the current dataset are not deactivated. Not currently disclosed by CMS. Another table in this dataset, NPPES_Deact, contains all of the deactivated NPI numbers.
DeactDate	NPI Deactivation Date	Not populated because records in this table are not deactivated. This field IS populated in the separate delta table tEntity_DEACT, described below.
ReactDate	NPI Reactivation Date	Date record was reactivated following a deactivation.
Gender	Provider Gender Code	M or F for Type 1 providers
IsSoleProp	Is Sole Proprietor	Y = provider operates as a sole proprietor. No = not a sole proprietorship. X = question not answered by provider.
IsOrgSubpart	Is Organization Subpart	For Type 2 providers, may be one of several organizational units, each with its own NPI number. Y = provider is a subpart. No = not a subpart. X = question not answered.
ParentOrgTIN	Parent Organization TIN	Not currently populated. CMS is not providing tax numbers at this time due to privacy concerns and the use of SSNs by a number of sole proprietor clinicians.
InPECOS	From monthly CMS PECOS distributions of PECOS-enrolled providers. Source: PECOS Ordering and Referring Report file distribution.	Y = Physicians and non-physician practitioners who are of a type/specialty that is legally eligible to order and refer in the Medicare program and who have current enrollment records in Medicare (i.e., they have enrollment records in PECOS)
Warning	From the Office of Inspector General's excluded providers database (LEIE), indicatying a sanction prevents the provider from billing Medicare. A warning in this field should not be taken as definitive; the user should check the	Y= elements in the providers record indicated a match with a listing in the federal excluded providers database (see the table tExcluded below)

			tExcluded table and consider other sources of provider fraud and exclusion information. Up until the May 2017 release, this field was algorithmically derived for some records. *	
		ExclType	The exclusion type from the LEIE database, explaining the reason that a provider was barred from billing Medicare. Fields with a Y in the Warning field will display this code.	The code's definition can be found at this link . A CSV file listing these exclusion descriptions is included in the CarePrecise Access Complete CSV download file.
		ExclDate	The date of the exclusion from the LEIE database, where reported.	
		UPIN	UPIN is a deprecated identifier, no longer used. CMS has stopped disseminating this data. The field remains here for purposes of backward-compatibility.	
		Group	From NPPES group taxonomy data	Y= this provider reported that it operates as either a multi-specialty group or single-specialty group.
		County		Name of county primarily associated with the practice Zip Code
		Zip5		First five digits of practice address Zip Code
CPAC	**tEntity-B**	**NPI**	National Provider Identifier	**Relational Key**
	(Provider entity and record	CertDate	Date of certification of	New field added with December 9,

	information)		provider's NPI number	2019 data release, refers to the date the NPI record was officially certified.
		EstPracYears	Estimated years provider has been in practice	Algorithmically derived* from EPGH tExtendedPhysician.GradYear and/or CPAC tEntity.EnumDate 2009 forward.
		Placekey	Deprecated field	As announced in the December 2025 and January 2025 releases, this is a deprecated field. It will remain in the file to maintain compatibility. The CarePrecise CoLoCode provides better functionality in matching records, and is less prone to compatibility issues.
CPAC	**tEntity-C** (Market data)	**NPI**	National Provider Identifier	**Relational Key**
		CountyFIPS		Practice county FIPS code
		StateFIPS		Practice state FIPS code
		TimeZone		Practice time zone
		DLSTime		Observes daylight saving time; Y= Yes
		MSA		Metropolitan Statistical Area of practice location
		PMSA		Primary Metropolitan Statistical Area of practice location
		Population		Practice Zip Code population
CPAC	**tHumanNames** (Provider person names or contact person names)	**NPI**	National Provider Identifier	**Relational Key**
		LN	Provider Last Name (Legal Name)	The enumerated individual provider's name (for Entity Type 1 records)
		FN	Provider First Name	
		MN	Provider Middle Name	
		PN	Provider Name Prefix Text	
		SN	Provider Name Suffix Text	
		Cred	Provider Credential Text	
		OthLN	Provider Other Last Name	Other name Type Codes:
		OthFN	Provider Other First Name	
		OthMN	Provider Other Middle Name	
		OthPN	Provider Other Name Prefix Text	
		OthSN	Provider Other Name Suffix Text	

Code	Description	EntityType
1	Former Name	1
2	Professional Name	1
5	Other	1, 2

		OthCred	Provider Other Credential Text	
		OthLNType	Provider Other Last Name Type Code	
		AuthLN	Authorized Official Last Name (Contact person for a Type 2 organization record)	Name of the provider's authorizing official, if other than the listed individual provider. For organizations (Entity Type 2 records), this is the contact name.
		AuthFN	Authorized Official First Name	
		AuthMN	Authorized Official Middle Name	
		AuthTitle	Authorized Official Title or Position	
		AuthPN	Authorized Official Name Prefix Text	
		AuthSN	Authorized Official Name Suffix Text	
		AuthCred	Authorized Official Credential Text	
CPAC	**tOID**	**NPI**	National Provider Identifier	**Relational Key**
	(Other identifiers, such as UPIN, OSCAR, PIN, Medicaid, etc., excluding NPI and taxonomy codes) One-to-many table.	OtherID	Other Provider Identifier	Identifier relevant to external data
		OtherIDType	Other Provider Identifier Type Code	<table><tr><th>Description</th><th>OtherIDType</th></tr><tr><td>Other</td><td>01</td></tr><tr><td>Medicaid</td><td>05</td></tr></table>
		OtherIDState	Other Provider Identifier State	In the case of a state license code, this is the licensing state
		OtherIDIssuer	Other Provider Identifier Issuer	
		OIDnum	Source: Added by CarePrecise to indicate the original NPPES flat file Other Identifiers field number.	The number of the NPPES Other Identifier field (1 through 50)
CPAC	**tOrgNames** (Provider organization names for Type 2 providers)	**NPI**	National Provider Identifier	**Relational Key**
		OrgName_LBN	Provider Organization Name (Legal Business Name)	LBN (for Entity Type 2 records)
		OthOrgName	Provider Other Organization Name. Note: CMS has ceased publishing the other organization name in this table. It has been moved to the OtheOrgNames table.	Other
		OthOrgNameType	Provider Other Organization Name	<table><tr><th>Code</th><th>Description</th><th>EntityType</th></tr><tr><td>3</td><td>DBA</td><td>2</td></tr></table>

			Type Code	4 Former LBN 2 5 Other 1, 2
		ParentOrgLBN	Parent Organization LBN	
CPAC	**tOtherOrgNames** Alternative org names beyond those lited in tOrgNames. One-to-many table. Table is not provided in custom data pulls (CarePrecise Select services).	**NPI**	National Provider Identifier	**Relational Key (composite)**
		OtherOrgName	Other Organization Name	**Relational Key (composite)** This field's data has ceased being published by CMS. Other organization names can now be found in the OtherOrganizationNames table.
		OtherOrgNameType	Other Organization Name Type	**Relational Key (composite)** Code: 3 DBA 2; 4 Former LBN 2; 5 Other 1, 2
CPAC	**tPhoneFax** (Provider phone and fax numbers; fax numbers for approx. 65% of records)	**NPI**	National Provider Identifier	**Relational Key**
		MailPhone	Provider Business Mailing Address Telephone Number	
		MailFax	Provider Business Mailing Address Fax Number	
		PracPhone	Provider Business Practice Location Address Telephone Number	
		PracFax	Provider Business Practice Location Address Fax Number	
		AuthPhone	Authorized Official Telephone Number	
CPAC	**tTaxoCode** (Provider Taxonomy codes indicating specialties and subspecialties for Type 1/individual providers, and facility types for Type 2/organization providers). One-to-many table. Providers may list up to 15 taxonomy codes on their NPI record. License numbers are linked to taxonomy, so they are contained here.	**NPI**	National Provider Identifier	**Relational Key**
		Taxo	Healthcare Provider Taxonomy Code (Specialties and Facilty Types)	Providers may have multiple taxonomies reported here, and thus multiple records in this one-to-many table. The Taxonomy Code indicates the provider's specialty; i.e., Pediatrician, Optometrist, etc.; or facility type; i.e., Hospital, Clinic, Nursing Facility, etc.
		Lic	Provider License Number	For Type 2 (organization) providers, License is no longer collected as of 9/10/2018.
		LicState	Provider License	For Type 2 (organization)

			Number State Code	providers, License is no longer collected as of 9/10/2018.
		TaxoSwitch	Healthcare Provider Primary Taxonomy Switch (Primary specialty indicator)	"Y" means this is the provider's primary specialty or facility code.
		Tnum	Source: Added by CarePrecise to indicate the original NPPES flat file Taxonomy Code (specialty) field number.	The number of the NPPES taxonomy field (1 through 15). If a primary taxonomy is not indicated, it may be useful to assume that the first-listed code (1) is primary.
CPAC	**tTaxoDescr** (Provider Taxonomy code descriptions)	**Taxo**	Taxonomy code for the provider (specialtyy or facility type code)	**Relational Key** to NPPES_TaxoCode.Taxo.
		TaxoDescr	Taxonomy code description (the specialty/subspecialty in English)	
		IndivOrOrg	Identifies taxonomy codes intended for individual practitioners (I) or organizations (O). Note that providers pay sub-optimal attention to these distinctions; organizations, such as clinics, may list a physician taxonomy code in addition to its clinic code.	Relational Key to NPPES_TaxoCode_Taxo.
CPAC	**tTaxoGroups** (Provider Taxonomy codes indicating group practices). One-to-many table.	**NPI**	National Provider Identifier	**Relational Key**
		Gnum	The source data (NPPES) permits group codes to be reported in up to 15 fields in this section. CarePrecise creates a one-to-many table, listing each of a provider's reported taxonomy group codes in a separate record. The Gnum is the NPPES Group Taxonomy field number in which the code was reported, allowing the code be matched with the specific group specialty in the tTaxo table. For instance, a	CMS does not report the group codes in the taxonomy section (which appear in our tTaxo table) because they represent an additional layer of information on any one or more of the tTaxo codes.

			code in tTaxoGroup field Gnum 3 indicates a group practice of the specialty reported in Tnum 3 in the tTaxo table.	
		TaxoGroup	Healthcare Provider Taxonomy Group_[1 through 15]	193200000X for a multi-specialty practice 193400000X for a single-specialty practice
CPAC	**tCoLoCode** (MDB and CSV formats)	**NPI**	National Provider Identifier	**Relational Key (composite)**
		CoLoCode™	Provider CoLoCode™ (co-location code, a CarePrecise algorithmically derived* exclusive). The NPI and CoLoCode comprise the dual relational key for this table. The NPI identifies the provider record, and the CoLoCode identifies the physical location. The CoLoCode is an up to 40-character string that stands in for detailed location data, and is not intended to be sensical to the human viewer.	**Relational Key (composite)** This code is an algorithmically derived conformation of the provider's practice location, permitting identification of providers who practice at the same location, for instance, physician groups, dental groups, radiology groups, etc. By using this table in conjunction with the tTaxoGroups table, it is possible to visualize the group entity (generally an organization) and its provider members. CoLoCodes are created for Practice addresses in the United States (US) and US Minor Islands (UM).
		Count	Count of providers matching this co-location (algorithmically derived * conformation of the provider's practice location; see tCoLoCodes above). Indicates the number of providers practicing at this location.	

CPAC	**tAdded** (CPAC records only) (MDB and CSV formats) Table is not provided in custom data pulls (CarePrecise Select services)	**NPI**	National Provider Identifier	**Relational Key (composite)**
		DateDiscovered		**Relational Key (composite)** The CarePrecise processing date on which the added provider record was discovered. Corresponds to the most recent previous CMS update date on which the added provider data was included in the NPPES database. Unduplicative index key is dual; NPI and DateDiscovered.
CPAC	**tDropped** (CPAC records only) Table is not provided in custom data pulls (CarePrecise Select services) (MDB and CSV formats)	**NPI**	National Provider Identifier	**Relational Key (composite)**
		DateDiscovered		**Relational Key (composite)** The CarePrecise processing date on which it was discovered that the provider record was dropped from the NPPES database. Corresponds to the most recent previous CMS update date on which the provider data was dropped from the NPPES database. Unduplicative index key is dual; NPI and DateDiscovered.
		EntityType	Entity Type Code	Type 1 is individual providers (i.e., physicians, psychologists, etc.); Type 2 is organizational providers (i.e., hospitals, labs, etc.)
		ProvName		This is a generated field based on EntityType.
		Prac1stAddr	Provider First Line Business Practice Location Address	
		Prac2ndAddr	Provider Second Line Business Practice Location Address	
		PracCity	Provider Business Practice Location Address City Name	
		PracState	Provider Business Practice Location Address State Name	The federal data contains variations on state codes, abbreviations and full state names; we conform this field to standard 2-character state codes. A small number of non-US postal addresses remain nonconforming.

		PracZip	Provider Business Practice Location Address Postal Code	
		PracCountry	Provider Business Practice Location Address Country Code (If outside U.S.)	
		PracPhone	Provider Business Practice Location Address Telephone Number	
		EnumDate	Provider Enumeration Date	
		UpdateDate	Last Update Date	Date this provider NPI record was last updated
CPAC	**tExcluded** (MDB and CSV formats) Table is not provided in custom data pulls (CarePrecise Select services)	LN	Last name (Type 1 providers)	This table, sourced from the LEIE, lists all provider records in the federal excluded providers database. A provider may be excluded (barred from billing Medicare) for reasons of a criminal nature, among other reasons. This table contains no relational key; however, it is used to produce the Warning field in the tEntity table, which does include the provider's NPI. This table should be referenced for backup information.
		FN	First name (Type 1 providers)	
		MN	Middle Name (Type 1 providers)	
		OrgName	Organization name (Type 2 providers)	
		Addr	Street address	
		City	City	
		State	State	
		Zip	Zip Code	
		DOB	Date of Birth. Not currently populated. CMS is not providing DOB and tax numbers at this time.	
		General	Provider category	
		Specialty	Provider specialty	
		UPIN	Federal physician identifier code (legacy)	
		ExclType	Exclusion type (why provider was excluded)	
		ExclDesc	Exclusion Description	
		ExclDate	Date provider was excluded (YYYYMMDD)	
CPAC	**tDeact** (MDB and CSV formats; CPAC records only) Table is not provided in custom data pulls (CarePrecise Select services)	**NPI**	National Provider Identifier	**Relational Key (composite)** This data is provided by CMS, listing all NPI records that have been deactivated and the deactivation date. Unduplicative

				index key is dual; NPI and DeactDate. Please note that a record may be added to the Deactivated tables, but then later be reactivated. Also note that Type 2 records (organizations) may have multiple records; some may be deactivated while others are active. When a record is reactivated it will appear in the tAdded table.
			DeactDate	Date CMS deactivated the provider's NPI record	**Relational Key (composite)**
			DeactFound	Date deactivation was processed by CarePrecise	
			DeactReason	Reason for deactivation.	Not currently populated. Not currently disclosed by CMS.
CPAC	**Delta tables in NPPES_Delta.mdb** (MDB format; CPAC records only) Table is not provided in custom data pulls (CarePrecise Select services)	tAddresses_DEACT tEntity_DEACT tHumanNames_DEACT tOID_DEACT tOrgNames_DEACT tPhoneFax_DEACT tTaxo_DEACT tTaxoGroups_DEACT tCoLoCode_DEACT	The Delta tables are contained in a separate database included in the CarePrecise Access Complete dataset, named NPPES_Delta. They contain near-complete data on those providers whose records have been deactivated by CMS for various reasons, including retirement, death, or for any of several infractions. These tables contain the same fields as the standard provider data tables as defined above for their namesakes, and are populated with the data from previous data releases, with the deactivation date populated in the tEntity_DEACT table's DeactDate field. Please note that a record may be added to the Deactivated tables, but then later be reactivated. Also note that Type 2 records (organizations) may have multiple records; some may be deactivated while others are active. When a record is reactivated it will appear in the tAdded table.		

Extended Data Included with CarePrecise Advanced , CarePrecise Platinum , and ScribeFax . Data is sourced from PECOS, Physician Compare, Hospital Compare and other CMS data, and is updated monthly. Provider records are a subset of the CPAC records, with approximately 650,000 physician records and 500,000 other providers.

File Set	Table Name	Field Name	Description	Additional Information
EPGH (Extended Professional, Group and Hospital data)	**tExtended_Professional** Only active providers (defined as having appeared on a Medicare claim in the past twelve months) are included in the EPGH dataset (unlike the CPAC dataset, which includes *all* US HIPAA-covered providers). EPGH data is available for approximately 615,000 physicians, and 300,000 other professionals, and is growing. The hospital data in EPGH provides an unduplicated listing of hospitals and their highest priority NPI number, and is linked to each hospital's affiliated professionals/physicians and practice groups. EPGH practice group data makes it possible to see the multiple locations at which an individual provider practices.	**NPI**	National Provider Identifier of Individual Professional	**Relational Key (composite and to CPAC)** Link to professional's data in the CPAC databases above. This ID is unique per professional (physician, PA, etc.).
		PACID	Individual's unique PAC ID (PECOS Associate Control ID). Unique individual professional ID assigned by Medicare PECOS system	**Relational Key (composite)** Link to practice group affiliations through the tExtended_GroupProfessional table, and is a link to upcoming practice group quality data.

		ProfEnrollID	Professional Enrollment ID	**Relational Key (composite)** Unique ID for the individual professional enrollment that is the source for the data in the record. One professional may have multiple records in this table as a result of multiple PECOS enrollments, each of which may have its own hospital and practice group affiliations.
		LN	Last Name	In most cases the name fields here will be duplicative of the fields in tHumanNames, but these are sourced from the PECOS system rather than the NPPES.
		FN	First Name	
		MN	Middle Name	
		Suffix	Name Suffix (Jr, III, etc.)	
		Gender	M (male) or F (female)	
		Cred	Credential	Medical credential such as MD, DO, DPM, etc.
		School	Professional's medical school	
		GradYear	Professional's medical school graduation year	
		PriSpec	Primary medical specialty reported by the individual professional in this PECOS enrollment record	
		AllSecSpec	All four secondary specialties reported by the individual professional in this PECOS enrollment record, separated by commas	
EPGH	**tExtended_Group** (Extended Practice Group information)	**GroupPracPACID**	Unique Group Practice PAC ID (PECOS Associate Control ID) assigned by PECOS to the Group Practice	**Relational Key** Links Group and Individual records within Extended tables. This ID is unique to each practice group.
		NPI	National Provider Identifier of the Practice Group	**Relational Key (to CPAC)** Links practice groups in Extended tables to CPAC data above. **Algorithmically derived * ; not available for all group records.** Use the GroupPracPACID to link individuals with their groups through the

				tExtended_GroupProfessional table.
		OrgLBN	Legal name of the Group Practice	
		CountGroupPracMem	Number of Individual Professionals affiliated with Group Practice	This count is limited to individuals within the Extended domain; others may be found within the standard CPAC tables via CoLoCode.
		StreetAddr1	Group Practice line 1 address	
		StreetAddr2	Group Practice line 2 address	
		Line2Suppress	Marker that address as reported may be incomplete	A peculiarity of the federal source data.
		City	Group Practice city	
		State	Group Practice state	
		Zip	Group Practice zip code (9 digits when available)	
		CoLoCode	Derived algorithmically * based on location data	May be used to identify additional affiliated individuals within the NPPES data above. See description of CoLoCode in the CPAC table tCoLoCode above.
		HlthSysID	RESERVED FOR LATER USE	This is reserved for inclusion of the group's health system ID number.
		HlthSysName	RESERVED FOR LATER USE	This is reserved for inclusion of the group's health system name.
		Placekey	Deprecated field	As announced in the December 2025 and January 2025 releases, this is a deprecated field. It will remain in the file to maintain compatibility. The CarePrecise CoLoCode provides the same functionality in matching records, and is less prone to compatibility issues.
		MSA	MSA/CBSA of the location	
EPGH	**tExtended_ GroupProfessional** (Many-to-Many table linking group practices with individual professionals. One or more individuals per group, and may be one or more groups per individual. Extended information on group	**NPI**	National Provider Identifier of the Individual Professional.	**Relational Key (composite and to CPAC)** Link to individual's data in CPAC tables above and in tExtended_Professional table. This ID is unique to the individual professional.
		GroupPracPACID	Unique Group Practice PAC ID (PECOS Associate	**Relational Key (composite)** Link between practice groups and

	practices' individual providers, incl. whether accepts Medicare assignment, participates in various federal medical quality programs. MDB and CSV formats). Many-to-many table.		Control ID) assigned by PECOS to the Group Practice that the individual professional works with.	their members in the tExtended_Professional table. This ID is unique to the practice group.
		AcceptsMedicareAsmt	Y = Accepts Medicare approved amount as payment in full. M = May accept Medicare Assignment.	All providers in this table are enrolled to bill Medicare, and have done so within the past 9 months, but may not still be accepting new Medicare patients, and may not accept Medicare amount as payment in full.
		eRx	Deprecated Field	
		PQRS	Deprecated Field	Quality data on individual professionals is not yet available in this product, but using the relational keys in this table, you will be able to access it when it is released.
		EHR	Deprecated Field	Y in this field means provider is participating in federal EHR incentive program, though may use an EHR system even if not affirmative in this field.
EPGH	**tExtended_Hospital** (Extended information on all U.S. acute care, VA and children's hospitals. Data provides a single unique NPI number per hospital facilitating deduplication of hospital record. MDB and CSV formats)	**CCN**	Medicare Hospital Provider Number (CMS Certification Number assigned by CMS)	**Relational Key** Link between hospitals and their affiliated individual physicians, etc. This ID is unique to each hospital recognized in the CMS PECOS system. If a hospital is eligible to bill Medicare (whether or not sanctioned), and is a general hospital (Acute Care, VA, Critical Access or Children's hospital), it is in this table. This key links to the exhaustive federal hospital quality data, optionally available for download at no cost to EPGH users.
		NPI	Priority National Provider Identifier.	Relational Key (to CPAC) Link to one of the hospital's records in CPAC tables above. Hospitals may have as many NPI numbers as they believe they need for their particular business circumstances, and tend to have many. We have listed here the Priority NPI, based on the hierarchical Taxonomy coding system, selecting first the NPI of

				the record containing the top (parent) taxonomy code for the hospital type, and, if not present, the NPI from the first-listed record for the hospital. **Algorithmically derived * ; not available for all hospital records.**
		HospitalName	Hospital name as reported by the hospital in its NPPES record	From the PECOS database
		HospitalLBN	Hospital legal business name as listed in hospital quality data	From the Hospital Compare database
		Address1	Hospital line 1 address	
		Address2	Hospital line 2 address	
		City	Hospital City	
		State	Hospital State	
		Zip Code	Hospital Zip Code	
		County	Hospital County	
		Phone	Phone	
		HospitalType	Hospital Type, as recorded in hospital quality data	
		HospitalOwnership	Hospital ownership structure	
		EmergencyService	Y= Hospital has emergency service	
		CoLoCode	Derived algorithmically * based on location data	May be used to identify additional data within NPPES tables above. See description of CoLoCode in the CPAC table tCoLoCode above.
		HlthSysID	RESERVED FOR LATER USE	This is reserved for inclusion of the group's health system ID number.
		HlthSysName	RESERVED FOR LATER USE	This is reserved for inclusion of the group's health system name.
		Placekey	Deprecated field	As announced in the December 2025 and January 2025 releases, this is a deprecated field. It will remain in the file to maintain compatibility. The CarePrecise CoLoCode provides better functionality in matching records, and is less prone to compatibility issues.
		MSA	MSA/CBSA of the location	
EPGH	**tExtended_HospAff** (1-to-Many table linking Hospitals with physicians	**HospAffCCN**	Medicare CCN (CMS Certification Number assigned by CMS) of	**Relational Key (composite)** Link to hospital details in tExtended_Hospital via CCN, and

	and other providers; up to five hospitals per individual) Many-to-many table.		hospital where individual professional provides service	to the CarePrecise Authoritative Hospital Database (APD)
		NPI	Unique professional ID assigned by NPPES to Individual Professional affiliated with hospital	**Relational Key (composite)** Link to Individual Professionals affiliated with hospital
		HospAffLBN	Legal business name of hospital where individual professional provides service	From the Hospital Compare database

* Marked above by an asterisk, algorithmically derived data in the datasets includes data that is extracted/mined from the source databases, but which has a margin of error and should not be relied upon as conclusive. Record linking algorithms are used to enrich our data when direct correlation (via a unique identifier field) is not available, using available information in name, address, phone, taxonomy, and other fields. In particular, some of the older data on providers excluded from billing Medicare (from the HHS Office of Inspector General's excluded providers database) can only be linked to NPI records by this means. Please note that when matches are found, there may be instances where an individual or firm has the same or similar name and location information as an excluded provider but is actually a different party. Therefore, it is important that you verify a potential match with the debarring agency identified in the record information. See the disclaimer appearing at the bottom of the documentation page .

Not all fields in all records are populated with data. Healthcare providers may update data in their record using the federal NPI registry website, and are required to do so within 30 days of a change in their information.

CarePrecise LLC reserves the right to make changes in the data and data structure as it deems necessary to preserve the quality of the product.
