

CarePrecise Platinum

CarePrecise Data Tables and Fields

CPAC CarePrecise Access Complete basic provider data

EPGH Extended Professional/Group/Hospital in Master Bundle & Platinum

CPLM Additional fields included in Gold & Platinum CP ListMaker (SharpMail proper casing software is included)

File Set	Table	Field Name	Description	Additional Information
CPAC (CarePrecise Access Complete) data is sourced and merged from the NPPEs, PECOS and LEIE databases, keyed on the NPI. Every record has a unique NPI, and the NPI is used to link the relational tables together. The CPAC dataset is updated monthly.				
CPAC	tAddresses (Provider addresses; MDB and CSV formats)	NPI	National Provider Identifier (unique National Provider Identifier assigned to healthcare providers by the US Department of Health and Human Services)	Relational Key The NPI is a unique 10-digit numerical code assigned to every HIPAA-covered healthcare provider, including individuals and organizations, by the U.S. Department of Human Services, Centers for Medicare and Medicaid Services (CMS).
		Mail1stAddr	Provider First Line Business Mailing Address	
		Mail2ndAddr	Provider Second Line Business Mailing Address	
		MailCity	Provider Business Mailing Address City Name	
		MailState	Provider Business Mailing Address State Code	
		MailZip	Provider Business Mailing Address Postal Code (most are 9-digit Zip Codes)	
		MailCountry	Provider Business Mailing Address Country Code (If outside U.S.)	
		Prac1stAddr	Provider First Line Business Practice Location Address	
		Prac2ndAddr	Provider Second Line Business Practice Location Address	
		PracCity	Provider Business Practice Location Address City Name	
		PracState	Provider Business Practice Location Address State Code	
		PracZip	Provider Business Practice Location Address Postal Code (most are 9-digit Zip Codes)	
		PracCountry	Provider Business Practice Location Address Country Code (If outside U.S.)	
CPAC	tOtherPracticeLocations Additional (secondary) practice locations for Type 2 providers; MDB and CSV formats One-to-many table.	NPI	National Provider Identifier	Relational Key (composite)
		SecondaryPracAddr1	First line of street address	Relational Key (composite)
		SecondaryPracAddr2	Second line of street address	
		SecondaryPracCity	City Name	
		SecondaryPracState	State Code	
		SecondaryPracZip	Postal Code (most are 9-digit Zip	

	Table is not provided in custom data pulls (CarePrecise Select services).		Codes)	
		SecondaryPracCountry	Country Code (If outside U.S.)	
		SecondaryPracPhone	Location Phone Number	
		SecondaryPracPhoneExt	Location Phone Extension	
		SecondaryPracFax	Location Fax Number	
		SecondaryLocationDate	Location Date	
CPAC	tEntity (Provider entity and record information; MDB and CSV formats)	NPI	National Provider Identifier	Relational Key
		EntityType	Entity Type Code	Type 1 indicates an individual provider (i.e., physician, psychologist, etc.); Type 2 indicates an organizational provider (i.e., hospital, lab, pharmacy, etc.). Type1 entities (individuals) may have only one NPI number and so only one record, but Type 2 entities (organizations) may have multiple NPI numbers and thus multiple records. <i>Click here to download the Exclusion Type Code description document...</i>
		ReplacementNPI	Replacement NPI	Not currently populated
		EIN	Employer Identification Number (EIN)	Not currently populated. CMS is not yet providing tax numbers of this type.
		EnumDate	Provider Enumeration Date	Date the record was first added to the NPI registry
		UpdateDate	Last Update Date	Date this provider NPI record was last updated
		DeactReason	NPI Deactivation Reason Code	Not populated because records in the current dataset are not deactivated. Not currently disclosed by CMS.
		DeactDate	NPI Deactivation Date	Not populated because records in this table are not deactivated. This field IS populated in the separate delta table tEntity_DEACT, described below.
		ReactDate	NPI Reactivation Date	Date record was reactivated following a deactivation.
		Gender	Provider Gender Code	M or F for Type 1 providers
		IsSoleProp	Is Sole Proprietor	Y = provider operates as a sole proprietor. No = not a sole proprietorship. X = question not answered by provider.
		IsOrgSubpart	Is Organization Subpart	For Type 2 providers, may be one of several organizational units, each with its own NPI number. Y = provider is a subpart. No = not a subpart. X = question not answered.
		ParentOrgTIN	Parent Organization TIN	Not currently populated. CMS is not currently providing tax numbers at this time.
InPECOS	From monthly CMS PECOS distributions of PECOS-enrolled providers. Source: PECOS Ordering and Referring Report file distribution.	Y = Physicians and non-physician practitioners who are of a type/specialty that is legally eligible to order and refer in the Medicare program and who have current enrollment records in Medicare (i.e., they have enrollment records in PECOS)		

Warning	From the Office of Inspector General's excluded providers database (LEIE), indicating a sanction prevents the provider from billing Medicare. A warning in this field should not be taken as definitive; the user should check the tExcluded table and consider other sources of provider fraud and exclusion information. Up until the May 2017 release, this field was algorithmically derived for some records. *	Y= elements in the providers record indicated a match with a listing in the federal excluded providers database (see the table tExcluded below)		
ExclType	The exclusion type from the LEIE database, explaining the reason that a provider was barred from billing Medicare. Fields with a Y in the Warning field will display this code.	The code's definition can be found at this link . A CSV file listing these exclusion descriptions is included in the CarePrecise Access Complete CSV download file.		
ExclDate	The date of the exclusion from the LEIE database, where reported.			
UPIN	UPIN is a deprecated identifier, no longer used. CMS has stopped disseminating this data. The field remains here for purposes of backward-compatibility.			
Group	From NPPES group taxonomy data	Y= this provider reported that it operates as either a multi-specialty group or single-specialty group.		
County		Name of county primarily associated with the practice Zip Code		
CountyFIPS		Practice county FIPS code		
StateFIPS		Practice state FIPS code		
TimeZone		Practice time zone		
DLSTime		Daylight saving time; Y= Yes		
MSA	Metropolitan Statistical Area of practice location			
PMSA	Primary Metropolitan Statistical Area of practice location			
Population		Zip Code population		
Zip5		First five digits of practice address Zip Code		
CPAC	tEntity-B	NPI	National Provider Identifier	Relational Key
	(Provider entity and record information; MDB and CSV formats)	CertDate	Date of certification of provider's NPI number	New field added with December 9, 2019 data release, refers to the date the NPI record was officially certified.
		EstPracYears	Estimated years provider has been in practice	Algorithmically derived* from EPGH tExtendedPhysician.GradYear and/or CPAC tEntity.EnumDate 2009

		forward.				
CPAC	tHumanNames (Provider person names or contact person names; MDB and CSV formats)	NPI	National Provider Identifier	Relational Key		
		LN	Provider Last Name (Legal Name)	The enumerated individual provider's name (for Entity Type 1 records)		
		FN	Provider First Name			
		MN	Provider Middle Name			
		PN	Provider Name Prefix Text			
		SN	Provider Name Suffix Text			
		Cred	Provider Credential Text			
		OthLN	Provider Other Last Name		Other name Type Codes:	
		OthFN	Provider Other First Name			Code Description EntityType
		OthMN	Provider Other Middle Name			1 Former Name 1
		OthPN	Provider Other Name Prefix Text			2 Professional Name 1
		OthSN	Provider Other Name Suffix Text			5 Other 1, 2
		OthCred	Provider Other Credential Text			
		OthLNType	Provider Other Last Name Type Code			
		AuthLN	Authorized Official Last Name (Contact person for a Type 2 organization record)		Name of the provider's authorizing official, if other than the listed individual provider. For organizations (Entity Type 2 records), this is the contact name.	
		AuthFN	Authorized Official First Name			
		AuthMN	Authorized Official Middle Name			
		AuthTitle	Authorized Official Title or Position			
		AuthPN	Authorized Official Name Prefix Text			
AuthSN	Authorized Official Name Suffix Text					
AuthCred	Authorized Official Credential Text					
CPAC	tOID (Other identifiers, such as UPIN, OSCAR, PIN, Medicaid, etc., excluding NPI and taxonomy codes; MDB and CSV formats) One-to-many table.	NPI	National Provider Identifier	Relational Key		
		OtherID	Other Provider Identifier	Identifier relevant to external data		
		OtherIDType	Other Provider Identifier Type Code	Description OtherIDType		
				Other 01		
				Medicaid 05		
		OtherIDState	Other Provider Identifier State	In the case of a state license code, this is the licensing state		
CPAC	tOrgNames (Provider organization names for Type 2 providers; MDB and CSV formats)	NPI	National Provider Identifier	Relational Key		
		OrgName_LBN	Provider Organization Name (Legal Business Name)	LBN (for Entity Type 2 records)		
		OthOrgName	Provider Other Organization Name	Other		
		OthOrgNameType	Provider Other Organization Name Type Code	Code Description EntityType		
				3 DBA 2		
		4 Former LBN 2				
		5 Other 1, 2				
	ParentOrgLBN	Parent Organization LBN				
CPAC	tOtherOrgNames Alternative org names beyond those listed in tOrgNames; MDB and CSV formats. One-to-many	NPI	National Provider Identifier	Relational Key (composite)		
		OtherOrgName	Other Organization Name	Relational Key (composite)		
		OtherOrgNameType	Other Organization Name Type	Relational Key (composite)		
			Code Description EntityType			
			3 DBA 2			

	table. Table is not provided in custom data pulls (CarePrecise Select services).			4 Former LBN 2 5 Other 1, 2
CPAC	tPhoneFax (Provider phone and fax numbers; fax numbers for approx. 65% of records; MDB and CSV formats)	NPI	National Provider Identifier	Relational Key
		MailPhone	Provider Business Mailing Address Telephone Number	
		MailFax	Provider Business Mailing Address Fax Number	
		PracPhone	Provider Business Practice Location Address Telephone Number	
		PracFax	Provider Business Practice Location Address Fax Number	
		AuthPhone	Authorized Official Telephone Number	
CPAC	tTaxo (Provider Taxonomy codes indicating specialties and subspecialties for Type 1/individual providers, and facility types for Type 2/organization providers; MDB and CSV formats). One-to-many table.	NPI	National Provider Identifier	Relational Key
		Taxo	Healthcare Provider Taxonomy Code (Specialties and Facility Types)	Providers may have multiple taxonomies reported here, and thus multiple records in this one-to-many table. The Taxonomy Code indicates the provider's specialty; i.e., Pediatrician, Optometrist, etc.; or facility type; i.e., Hospital, Clinic, Nursing Facility, etc.
		Lic	Provider License Number	For Type 2 (organization) providers, License is no longer collected as of 9/10/2018.
		LicState	Provider License Number State Code	For Type 2 (organization) providers, License is no longer collected as of 9/10/2018.
		TaxoSwitch	Healthcare Provider Primary Taxonomy Switch (Primary specialty indicator)	"Y" means this is the provider's primary specialty or facility code.
		Tnum	Source: Added by CarePrecise to indicate the original NPPES flat file Taxonomy Code (specialty) field number.	The number of the NPPES taxonomy field (1 through 15). If a primary taxonomy is not indicated, it may be useful to assume that the first-listed code (1) is primary.
		TaxoDescr		Taxonomy code description (the specialty/subspecialty in English)
CPAC	tTaxoGroups (Provider Taxonomy codes indicating group practices; MDB and CSV formats). One-to-many table.	NPI	National Provider Identifier	Relational Key
		Gnum	The source data (NPPES) permits group codes to be reported in up to 15 fields in this section. CarePrecise creates a one-to-many table, listing each of a provider's reported taxonomy group codes in a separate record. The Gnum is the NPPES Group Taxonomy field number in which the code was reported, allowing the code be matched with the specific group specialty in the tTaxo table. For instance, a code in tTaxoGroup field Gnum 3 indicates a group practice of the specialty reported in Tnum 3 in the tTaxo table.	CMS does not report the group codes in the taxonomy section (which appear in our tTaxo table) because they represent an additional layer of information on any one or more of the tTaxo codes.

		TaxoGroup	Healthcare Provider Taxonomy Group_[1 through 15]	193200000X for a multi-specialty practice 193400000X for a single-specialty practice
CPAC	tCoLoCode (MDB and CSV formats)	NPI	National Provider Identifier	Relational Key (composite)
		CoLoCode™	Provider CoLoCode™ (co-location code, a CarePrecise algorithmically derived* exclusive) . The NPI and CoLoCode comprise the dual relational key for this table. The NPI identifies the provider record, and the CoLoCode identifies the physical location. The CoLoCode is an up to 40-character string that stands in for detailed location data, and is not intended to be sensical to the human viewer.	Relational Key (composite) This code is an algorithmically derived conformation of the provider's practice location, permitting identification of providers who practice at the same location, for instance, physician groups, dental groups, radiology groups, etc. By using this table in conjunction with the tTaxoGroups table, it is possible to visualize the group entity (generally an organization) and its provider members. CoLoCodes are created for Practice addresses in the United States (US) and US Minor Islands (UM).
		Count	Count of providers matching this co-location (algorithmically derived * conformation of the provider's practice location; see tCoLoCodes above). Indicates the number of providers practicing at this location.	
CPAC	tAdded (CPAC records only)	NPI	National Provider Identifier	Relational Key (composite)
	(MDB and CSV formats) Table is not provided in custom data pulls (CarePrecise Select services)	DateDiscovered		Relational Key (composite) The CarePrecise processing date on which the added provider record was discovered. Corresponds to the most recent previous CMS update date on which the added provider data was included in the NPPES database. Unduplicative index key is dual; NPI and DateDiscovered.
CPAC	tDropped (CPAC records only) Table is not provided in custom data pulls (CarePrecise Select services)	NPI	National Provider Identifier	Relational Key (composite)
	(MDB and CSV formats)	DateDiscovered		Relational Key (composite) The CarePrecise processing date on which it was discovered that the provider record was dropped from the NPPES database. Corresponds to the most recent previous CMS update date on which the provider data was dropped from the NPPES database.

Unduplicative index key is dual; NPI and DateDiscovered.

EntityType	Entity Type Code	Type 1 is individual providers (i.e., physicians, psychologists, etc.); Type 2 is organizational providers (i.e., hospitals, labs, etc.)
ProvName		This is a generated field based on EntityType.
Prac1stAddr	Provider First Line Business Practice Location Address	
Prac2ndAddr	Provider Second Line Business Practice Location Address	
PracCity	Provider Business Practice Location Address City Name	
PracState	Provider Business Practice Location Address State Name	The federal data contains variations on state codes, abbreviations and full state names; we conform this field to standard 2-character state codes. A small number of non-US postal addresses remain nonconforming.
PracZip	Provider Business Practice Location Address Postal Code	
PracCountry	Provider Business Practice Location Address Country Code (If outside U.S.)	
PracPhone	Provider Business Practice Location Address Telephone Number	
EnumDate	Provider Enumeration Date	
UpdateDate	Last Update Date	Date this provider NPI record was last updated

CPAC	tExcluded (MDB and CSV formats) Table is not provided in custom data pulls (CarePrecise Select services)	LN	Last name (Type 1 providers)	This table, sourced from the LEIE, lists all provider records in the federal excluded providers database. A provider may be excluded (barred from billing Medicare) for reasons of a criminal nature, among other reasons. This table contains no relational key; however, it is used to produce the Warning field in the tEntity table, which does include the provider's NPI. This table should be referenced for backup information.
		FN	First name (Type 1 providers)	
		MN	Middle Name (Type 1 providers)	
		OrgName	Organization name (Type 2 providers)	
		Addr	Street address	
		City	City	
		State	State	
		Zip	Zip Code	
		DOB	Date of Birth. Not currently populated. CMS is not providing tax numbers at this time.	
		General	Provider category	
		Specialty	Provider specialty	
		UPIN	Federal physician identifier code (legacy)	
		ExclType	Exclusion type (why provider was excluded)	
		ExclDesc	Exclusion Description	
		ExclDate	Date provider was excluded (YYYYMMDD)	

CPAC	tDeact (MDB and CSV formats; CPAC records only) Table is not provided in custom data pulls (CarePrecise Select services)	NPI	National Provider Identifier	Relational Key (composite) This data is provided by CMS, listing all NPI records that have been deactivated and the deactivation date. Unduplicative index key is dual; NPI and DeactDate. Please note that a record may be added to the Deactivated tables, but then later be reactivated. Also note that Type 2 records (organizations) may have multiple records; some may be deactivated while others are active. When a record is reactivated it will appear in the tAdded table.
		DeactDate	Date CMS deactivated the provider's NPI record	Relational Key (composite)
		DeactFound	Date deactivation was processed by CarePrecise	
		DeactReason	Reason for deactivation.	Not currently populated. Not disclosed by CMS.
CPAC	Delta tables in NPPES_Delta.mdb (MDB format; CPAC records only) Table is not provided in custom data pulls (CarePrecise Select services)	tAddresses_DEACT tEntity_DEACT tHumanNames_DEACT tOID_DEACT tOrgNames_DEACT tPhoneFax_DEACT tTaxo_DEACT tTaxoGroups_DEACT tCoLoCode_DEACT	The Delta tables are contained in a separate database included in the CarePrecise Access Complete dataset, named NPPES_Delta. They contain near-complete data on those providers whose records have been deactivated by CMS for various reasons, including retirement, death, or for any of several infractions. These tables contain the same fields as the standard provider data tables as defined above for their namesakes, and are populated with the data from previous data releases, with the deactivation date populated in the tEntity_DEACT table's DeactDate field. Please note that a record may be added to the Deactivated tables, but then later be reactivated. Also note that Type 2 records (organizations) may have multiple records; some may be deactivated while others are active. When a record is reactivated it will appear in the tAdded table.	
<p>Additional Data Included with Extended Professional, Group and Hospital (EPGH)/CPAC Master Bundle and CarePrecise Platinum . Data is sourced from PECOS, Physician Compare, Hospital Compare and other CMS data, and is updated monthly. Provider records are a subset of the CPAC records, with approximately 600,000 physician records and 500,000 other providers. The EPGH is not sold separately, and is available only as a bundle. No time stamp is provided for EPGH updates, and no historical data is included.</p>				
EPGH	tExtended_Professional (The EPGH is available optionally as a bundle with CarePrecise Access Complete (CPAC) that provides additional information on healthcare professionals (particularly physicians), practice groups and hospitals, and reveals the affiliation links between all three. MDB and CSV formats.) Only active providers (defined as having appeared on a Medicare claim in the past twelve months) are included in the EPGH dataset (unlike the CPAC dataset, which includes <i>all</i> US HIPAA-covered providers). EPGH data is available for approximately 615,000 physicians, and 300,000 other professionals, and is growing. The hospital data in EPGH provides an unduplicated listing of	NPI	National Provider Identifier of Individual Professional	Relational Key (composite and to CPAC) Link to professional's data in the CPAC databases above. This ID is unique per professional (physician, PA, etc.).
		PACID	Individual's unique PAC ID (Practice Access Code). Unique individual professional ID assigned by Medicare PECOS system	Relational Key (composite) Link to practice group affiliations through the tExtended_GroupProfessional table, and is a link to upcoming practice group quality data.
		ProfEnrollID	Professional Enrollment ID	Relational Key (composite) Unique ID for the individual professional enrollment that is the source for the data in the record. One professional may have multiple

	<p>hospitals and their highest priority NPI number, and is linked to each hospital's affiliated professionals/physicians and practice groups. EPGH practice group data makes it possible to see the multiple locations at which an individual provider practices.</p>		<p>records in this table as a result of multiple PECOS enrollments, each of which may have its own hospital and practice group affiliations.</p>																																	
<p>EPGH</p>	<p>tExtended_Group (Extended Practice Group information; MDB and CSV formats)</p>	<table border="1"> <tr> <td data-bbox="467 879 743 1083">GroupPracPACID</td> <td data-bbox="743 879 1170 1083">Unique Group Practice PAC ID (Practice Access Code) assigned by PECOS to the Group Practice</td> <td data-bbox="1170 879 1589 1083"> <p>Relational Key</p> <p>Links Group and Individual records within Extended tables. This ID is unique to each practice group.</p> <p>This key will link to group practice quality data soon to be released.</p> </td> </tr> <tr> <td data-bbox="467 1083 743 1402">NPI</td> <td data-bbox="743 1083 1170 1402">National Provider Identifier of the Practice Group</td> <td data-bbox="1170 1083 1589 1402"> <p>Relational Key (to CPAC)</p> <p>Links practice groups in Extended tables to CPAC data above.</p> <p>Algorithmically derived * ; not available for all group records.</p> <p>Use the GroupPracPACID to link individuals with their groups through the tExtended_GroupProfessional table.</p> </td> </tr> <tr> <td data-bbox="467 1402 743 1444">OrgLBN</td> <td data-bbox="743 1402 1170 1444">Legal name of the Group Practice</td> <td data-bbox="1170 1402 1589 1444"></td> </tr> <tr> <td data-bbox="467 1444 743 1560">CountGroupPracMem</td> <td data-bbox="743 1444 1170 1560">Number of Individual Professionals affiliated with Group Practice</td> <td data-bbox="1170 1444 1589 1560">This count is limited to individuals within the Extended domain; others may be found within the standard CPAC tables via CoLoCode.</td> </tr> <tr> <td data-bbox="467 1560 743 1602">StreetAddr1</td> <td data-bbox="743 1560 1170 1602">Group Practice line 1 address</td> <td data-bbox="1170 1560 1589 1602"></td> </tr> <tr> <td data-bbox="467 1602 743 1644">StreetAddr2</td> <td data-bbox="743 1602 1170 1644">Group Practice line 2 address</td> <td data-bbox="1170 1602 1589 1644"></td> </tr> <tr> <td data-bbox="467 1644 743 1707">Line2Suppress</td> <td data-bbox="743 1644 1170 1707">Marker that address as reported may be incomplete</td> <td data-bbox="1170 1644 1589 1707">A peculiarity of the federal source data.</td> </tr> <tr> <td data-bbox="467 1707 743 1749">City</td> <td data-bbox="743 1707 1170 1749">Group Practice city</td> <td data-bbox="1170 1707 1589 1749"></td> </tr> <tr> <td data-bbox="467 1749 743 1791">State</td> <td data-bbox="743 1749 1170 1791">Group Practice state</td> <td data-bbox="1170 1749 1589 1791"></td> </tr> <tr> <td data-bbox="467 1791 743 1854">Zip</td> <td data-bbox="743 1791 1170 1854">Group Practice zip code (9 digits when available)</td> <td data-bbox="1170 1791 1589 1854"></td> </tr> <tr> <td data-bbox="467 1854 743 1950">CoLoCode</td> <td data-bbox="743 1854 1170 1950">Derived algorithmically * based on location data</td> <td data-bbox="1170 1854 1589 1950">May be used to identify additional affiliated individuals within the NPPES data above. StreetAddr1	Group Practice line 1 address		StreetAddr2	Group Practice line 2 address		Line2Suppress	Marker that address as reported may be incomplete	A peculiarity of the federal source data.	City	Group Practice city		State	Group Practice state		Zip	Group Practice zip code (9 digits when available)		CoLoCode	Derived algorithmically * based on location data	May be used to identify additional affiliated individuals within the NPPES data above. See description of CoLoCode in the CPAC table	
GroupPracPACID	Unique Group Practice PAC ID (Practice Access Code) assigned by PECOS to the Group Practice	<p>Relational Key</p> <p>Links Group and Individual records within Extended tables. This ID is unique to each practice group.</p> <p>This key will link to group practice quality data soon to be released.</p>																																		
NPI	National Provider Identifier of the Practice Group	<p>Relational Key (to CPAC)</p> <p>Links practice groups in Extended tables to CPAC data above.</p> <p>Algorithmically derived * ; not available for all group records.</p> <p>Use the GroupPracPACID to link individuals with their groups through the tExtended_GroupProfessional table.</p>																																		
OrgLBN	Legal name of the Group Practice																																			
CountGroupPracMem	Number of Individual Professionals affiliated with Group Practice	This count is limited to individuals within the Extended domain; others may be found within the standard CPAC tables via CoLoCode.																																		
StreetAddr1	Group Practice line 1 address																																			
StreetAddr2	Group Practice line 2 address																																			
Line2Suppress	Marker that address as reported may be incomplete	A peculiarity of the federal source data.																																		
City	Group Practice city																																			
State	Group Practice state																																			
Zip	Group Practice zip code (9 digits when available)																																			
CoLoCode	Derived algorithmically * based on location data	May be used to identify additional affiliated individuals within the NPPES data above. See description of CoLoCode in the CPAC table																																		

tCoLoCode above.

<p>EPGH</p>	<p>tExtended_GroupProfessional (Many-to-Many table linking group practices with individual professionals. One or more individuals per group, and may be one or more groups per individual. Extended information on group practices' individual providers, incl. whether accepts Medicare assignment, participates in various federal medical quality programs. MDB and CSV formats). Many-to-many table.</p>	<p>NPI</p>	<p>National Provider Identifier of the Individual Professional.</p>	<p>Relational Key (composite and to CPAC) Link to individual's data in CPAC tables above and in tExtended_Professional table. This ID is unique to the individual professional.</p>
		<p>GroupPracPACID</p>	<p>Unique Group Practice PAC ID (Practice Access Code) assigned by PECOS to the Group Practice that the individual professional works with.</p>	<p>Relational Key (composite) Link between practice groups and their members in the tExtended_Professional table. This ID is unique to the practice group.</p>
		<p>AcceptsMedicareAsmt</p>	<p>Y = Accepts Medicare approved amount as payment in full. M = May accept Medicare Assignment.</p>	<p>All providers in this table are enrolled to bill Medicare, and have done so within the past 9 months, but may not still be accepting new Medicare patients, and may not accept Medicare amount as payment in full.</p>
		<p>eRx</p>	<p>Participates in the eRx Incentive Program, a pay-for-reporting program to encourage physicians, other providers to use electronic prescribing of medications.</p>	
		<p>PQRS</p>	<p>Participates in the Medicare Physician Quality Reporting System (PQRS) Incentive Program - a pay-for-reporting program that gives eligible professionals incentives and payment adjustments if they report quality measures satisfactorily.</p>	<p>Quality data on individual professionals is not yet available in this product, but using the relational keys in this table, you will be able to access it when it is released.</p>
		<p>EHR</p>	<p>Participates in the Medicare Electronic Health Record (EHR) Incentive Program - provides incentives and payment adjustments to eligible professionals who use certified EHR technology in ways that may improve healthcare.</p>	<p>Y in this field means provider is participating in federal EHR incentive program, though may use an EHR system even if not affirmative in this field.</p>
<p>EPGH</p>	<p>tExtended_Hospital (Extended information on all U.S. acute care, VA and children's hospitals. Data provides a single unique NPI number per hospital facilitating deduplication of hospital record. MDB and CSV formats)</p>	<p>CCN</p>	<p>Medicare Hospital Provider Number (CMS Certification Number assigned by CMS)</p>	<p>Relational Key Link between hospitals and their affiliated individual physicians, etc. This ID is unique to each hospital recognized in the CMS PECOS system. If a hospital is eligible to bill Medicare (whether or not sanctioned), and is a general hospital (Acute Care, VA, Critical Access or Children's hospital), it is in this table. This key links to the exhaustive federal hospital quality data, optionally available for download at no cost to EPGH users.</p>
		<p>NPI</p>	<p>Priority National Provider Identifier.</p>	<p>Relational Key (to CPAC) Link to one of the hospital's records in CPAC tables above. Hospitals may</p>

have as many NPI numbers as they believe they need for their particular business circumstances, and tend to have many. We have listed here the Priority NPI, based on the hierarchical Taxonomy coding system, selecting first the NPI of the record containing the top (parent) taxonomy code for the hospital type, and, if not present, the NPI from the first-listed record for the hospital. **Algorithmically derived * ; not available for all hospital records.**

HospitalName	Hospital name as reported by the hospital in its NPPES record	From the PECOS database
HospitalLBN	Hospital legal business name as listed in hospital quality data	From the Hospital Compare database
Address1	Hospital line 1 address	
Address2	Hospital line 2 address	
City	Hospital City	
State	Hospital State	
Zip Code	Hospital Zip Code	
County	Hospital County	
Phone	Phone	
HospitalType	Hospital Type, as recorded in hospital quality data	
HospitalOwnership	Hospital ownership structure	
EmergencyService	Y= Hospital has emergency service	
CoLoCode	Derived algorithmically * based on location data	May be used to identify additional data within NPPES tables above. See description of CoLoCode in the CPAC table tCoLoCode above.

EPGH	tExtended_HospAff (1-to-Many table linking Hospitals with physicians and other providers; up to five hospitals per individual; MDB and CSV formats.) Many-to-many table.	HospAffCCN	Medicare CCN (CMS Certification Number assigned by CMS) of hospital where individual professional provides service	Relational Key (composite) Link to hospital details in tExtended_Hospital via CCN, and to the CarePrecise Authoritative Hospital Database (APD)
		NPI	Unique professional ID assigned by NPPES to Individual Professional affiliated with hospital	Relational Key (composite) Link to Individual Professionals affiliated with hospital
		HospAffLBN	Legal business name of hospital where individual professional provides service	From the Hospital Compare database

Additional data included in the **CP ListMaker** software component of **CarePrecise Platinum**, sourced from USPS and U.S. Department of Commerce, and independent CarePrecise research. Data is periodically updated. These data are available only as part of the CP ListMaker and CarePrecise Gold/Platinum products, and are not sold separately. Note that only the tZips data, and not the the CP ListMaker application itself, is included in special licensing for Derivative Products or Redistribution.

CPLM	tZips Economic and social segmentation data for providers' service areas	ZipCode	5-digit Zip Code	Relational Key (to CPAC.tEntity.Zip5)	
		Wealth	Numerical indicator of the relative wealth/poverty of the provider's immediate service area (5-digit zip). Wealth/poverty level is show as a percentage of the Federal Poverty Level (FPL) for the particular geographic area. Currently up to 12 levels are present in the data; additional levels will be included when	Description	Wealth Level
				=<50% FPL	1
				50% to 100% FPL	2
				100% to 150% FPL	3
				150% to 200% FPL	4
				200% to 300% FPL	5

		data for those more extreme wealth levels are present.	<table border="1"> <tr><td>300% to 500% FPL</td><td>6</td></tr> <tr><td>500% to 700% FPL</td><td>7</td></tr> <tr><td>700% to 1000% FPL</td><td>8</td></tr> <tr><td>1000% to 1500% FPL</td><td>9</td></tr> <tr><td>1500% to 2000% FPL</td><td>10</td></tr> <tr><td>2000% to 3000% FPL</td><td>11</td></tr> <tr><td>Greater than 3000% FPL</td><td>12</td></tr> </table>	300% to 500% FPL	6	500% to 700% FPL	7	700% to 1000% FPL	8	1000% to 1500% FPL	9	1500% to 2000% FPL	10	2000% to 3000% FPL	11	Greater than 3000% FPL	12
300% to 500% FPL	6																
500% to 700% FPL	7																
700% to 1000% FPL	8																
1000% to 1500% FPL	9																
1500% to 2000% FPL	10																
2000% to 3000% FPL	11																
Greater than 3000% FPL	12																
		RuralUrban	Indicates Rural (R), Urban (U) or Other (O) status for the provider's immediate service area (zip). Other indicates suburban or small city status.														
		City	City associated with Zip Code														
		County	County primarily associated with Zip Code														
		State	State associated with Zip Code														
		Latitude	Geographic latitude to 5-digit zip accuracy (center of Zip)														
		Longitude	Geographic longitude to 5-digit zip accuracy (center of Zip)														
CPLM	Additional Gold data tables:	Additional data tables included in CarePrecise Gold are used by the included SharpMail™ tool to produce correctly-cased names and addresses and correctly-genderized and -prefixed salutations.

* Marked above by an asterisk (*), algorithmically derived data in the datasets includes data that is extracted/mined from the source databases, but which has a margin of error and should not be relied upon as conclusive. Record linking algorithms are used to enrich our data when direct correlation (via a unique identifier field) is not available, using available information in name, address, phone, taxonomy, and other fields. In particular, some of the older data on providers excluded from billing Medicare (from the HHS Office of Inspector General's excluded providers database) can only be linked to NPI records by this means. Please note that when matches are found, there may be instances where an individual or firm has the same or similar name and location information as an excluded provider but is actually a different party. Therefore, it is important that you verify a potential match with the debarring agency identified in the record information. See the disclaimer appearing at the bottom of the [documentation page](#).

Not all fields in all records are populated with data. Healthcare providers may update data in their record using the federal NPI registry website, and are required to do so within 30 days of a change in their information.

CarePrecise LLC reserves the right to make changes in the data and data structure as it deems necessary to preserve the quality of the product. Please read the Notice at the bottom of the page <https://www.careprecise.com/help/> for additional information about the data.
